

## Product Specification

|               |  |
|---------------|--|
| Catalog No:   | 32S-R1a, 0.5 ml  |
| Host Species: | Rabbit   |
| Specificity:  | Specifically binds to human apo CII. Dilution for immunoblot and ELISA range: 200 to 160,000.                    |
| Source:       | Produced by injection of pure human apo CII. *   |
| Preservation: | With 0.1% NaN <sub>3</sub> .   |
| Use:          | The antibody can be used to detect the human apo CII in plasma and lipoproteins; for immunoassay and immunoblot. |

*Reconstitution and Storage: Freeze-dried product should be stored refrigerated until opened. After opening, restore to 0.5 ml with distilled water. If it is not completely clear after standing for 1-2 Hours at room temperature, centrifuge the product. It is stable for several weeks at 4° C as an undiluted liquid. Do not use for more than one day after dilution. For extended storage after reconstitution, we suggest aliquot to avoid repeated freezing and thawing; or the addition of an equal volume of glycerol to make a final glycerol concentration of 50%, followed by storage at -20° C. The concentration of protein and buffer salts will decrease to one-half of the original after the addition of glycerol*

*\*The products are for research or manufacturing use only, not for use in human therapeutic or diagnostic applications.*
